- Please read instructions carefully before assembling bed.
- Use the above parts and hardware list to identify each component.
- Keep all packing materials until assembly is complete to avoid loss of smaller parts.

1. Place the Headboard (A) upright in the position you wish the bed to be in when fully assembled. Secure the Threaded Rod (1) to the fixed nut on the Headboard (A) by simply turning it manually.
2. Raise the Side Rail (B) up and place the Threaded Rod (1) to align with the bore holes on the end of the Side Rails (B). Insert Curved Washer (2), Lock Washer (3), and secure the Nut (4) with Spanner Wrench (5), as shown in Diagram I.
3. Place the Slats (D) to the top of the Side Rail's side slats and fasten using Screw (7), as shown in Diagram II.
